# THE GHOSTS IN OUR MACHINE

**A film & web documentary narrative in development**  
*animals are hidden in the shadows of our highly mechanized urban world ...*

**NEWSLETTER 03 / 06.17.11**  
**HELLO FRIENDS OF THE GHOSTS**

Our online Indiegogo fundraising campaign is approaching its half way mark. To be on target we should raise at least \$6,000 by this Wednesday June 22nd. Currently we sit at \$4,805. So this is a call out to those who have been thinking of making a donation: Now is the perfect time!

<http://www.indiegogo.com/THE-GHOSTS-IN-OUR-MACHINE>

To mark the half way point our fun contest draw will determine the winner of the fashionable English Retreads Handbag. Thanks again to Donna Oaks of Cow Jones Industrials Vegan Boutique in NY. You are an awesome friend to the project.

Here is a list of links to some new friends who have been spreading the word about THE GHOSTS IN OUR MACHINE.

We are excited about how the project is starting to snowball far beyond Canada. In fact, according to our website traffic stats, most of our community is in the US!

**And**, as I just posted on my personal facebook page ...

**I am writing an Op-Ed about my journey as a filmmaker as I grapple with, embrace, live and breathe the focus of my new project: animals. not the cute members of our family, and not the majestic mammals who are bordering extinction. the ones we use as objects in industries, the ghosts in our machine. the majority of us do not want to see, look, learn, hear about them. why? please add your comments ...**

**For the ghosts,**

**Liz**
